READ SAFETY RULES AND INSTRUCTIONS CAREFULLY!

WARNING:

- When using this hot melt glue gun, always follow basic safety precautions. This will reduce the possibility of accidental injury due to burns or electrical shock.
- Always wear safety glasses, protective gloves, and protective clothing with long sleeve shirts and pants.
- This product must have a ground connection.

Tips on Using:

The following guide provides helpful information for G25E03-001/CHAMP™ STICK 400 glue gun and hot melts adhesives.

1. The normal working time of the hot-melt is thirty (30) seconds. After the adhesive has been extruded onto the bonding surface, the part should be pressed together within fifteen to twenty (15-20) seconds. The bond will have about 90% of its bond strength in one minute.
2. The working time of the hot-melt can be extended to fifty to sixty (50-60) seconds by applying the adhesive in large drops (11mm diameter) or shortened to less than ten (10) seconds by extruding the adhesive in a thin line.
3. Large areas are difficult to bond because the adhesive often hardens before you have extruded the required amount. Use a higher volume hot melt system from Glue Machinery Corporation for these projects.
4. Preheating the bonding surface to slightly above room temperature will improve the bonding strength. This action is particularly important when gluing metal pieces.
5. The hot-melt adheres well to porous surfaces like paper, cloth, particleboard, and wood.
6. The hot-melt adhesives quick set time eliminates the need for clamps or other holding devices.
7. The hot-melt begins to soften when the temperature exceeds 140°F and should not be used for items that will be subjected to temperatures above that. Other hot melts are available with high softening points that must be processed with bulk Hot Melt Systems available from Glue Machinery Corporation.
8. Hot-melt adhesives can be used in place of nails, staples, tape, or liquid glue; however, they should not be used to replace structural fasteners where heavy loads are involved.
9. Glue can string from the nozzle. If your glue is stringing from the nozzle you may want to swirl the nozzle in a circular motion so the heat of the nozzle will cut the string. If the glue string lands on your component, allow the glue to cool, then use a hair dryer and blow off the glue string. Adjustments to the temperature and nozzle can also help reduce stringing.

Operation:

1. Plug the glue gun into any AC outlet with required specification; red light on means the power is on.
2. Allow the tool to heat for approximately 5 minutes. Insert a stick of adhesive (1/2"/11mm diameter) into the back of the tool.
3. When the gun is fully heated, squeeze the trigger slowly, until the melted material begins to flow from the nozzle. Release the trigger to stop the glue flow.
4. The output volume of the glue can be adjusted by adjusting the patented stroke adjuster screw.
5. Different nozzle tips are available for different gluing applications and output amount.
6. Use screwdriver to adjust the operating temperature for which that glue stick is designed. Gun temperature is adjustable from 284F to 428F (140C-220C)
7. Use the glue gun trigger to adjust the output and speed of the glue sticks.

Save these safety rules for future use:

1. It is normal for this tool to become quite warm during use. This is normal and does not indicate a problem.
2. The glue gun should be unplugged after use or if it will not be used within 1-hour period. The adhesive can be stored indefinitely in the unheated gun and re-melted by heating up the tool.
3. If you accidentally touch the molten hot glue, immediately immerse the affected area in cold water and call a doctor. The injured area should be attended by a medical professional.
4. Some materials are heat-sensitive and can be damaged by the hot nozzle or even the hot glue. Whenever possible, test a piece of scrap material or a hidden portion of the object being repaired.
5. If the supply cord is damaged, it must be replaced by the manufacturer or its service agent or a similar qualified person in order to avoid a hazard.

Read all Safety Instructions:

- **Work area.** This tool was designed to be used on a clean, dry work surface. Excessive dust and dirt may reduce the lifetime of this tool. Do not use in wet or damp locations. Your work areas should keep well lit.
- **This tool is recommended for indoor use only.** Do not use outdoors.
- **Keep children away.** Small children should be kept away from work area. Accidental contact with tool or extension cord should be avoided.
- **Glue gun storage.** After use, allow glue gun to cool completely prior to storage. When not in use, the glue gun should be stored in dry and secure location out of the reach of children.
- **Electrical cord precautions.** Do not carry the tool by the cord or yank to disconnect from the receptacle. Keep the cord away from the nozzle or other high heat sources. Periodically inspect the electrical cord for any sign of wear or damage.
- **Disconnect electrical power.** When not in use, before servicing, and when changing. Do not yank on cord to unplug from electrical receptacle.
- **Stay alert.** Pay attention to your work. Beware of any dripping hot glue from your project. Use common sense. Do not operate this gun when you are tired. Do not operate under the influence of alcohol or other drugs that may impair your physical abilities.
- **Do not touch the heated nozzle of the glue gun or the hot adhesive.** The operating temperature of this tool can be as high as 446°F (230°C).
- **Use recommended accessories.** Use only recommended adhesives in this glue gun. Putting other materials than recommended may result in accidental injury and permanent damage to the glue gun. For example: do not attempt to melt crayons or candles.
- **Never use the tool if it is damaged in any way.**
- **Hot melt adhesives are not a replacement for structural fastener.**
- **Hot melt glue should not be used for projects that will be exposed to extreme heat.** Some adhesive used with this glue gun can soften at about 140°F.
- ***Do not attempt to remove unused portion of a glue stick from the tool.***
- Do not expose the glue gun to extreme changes in temperature during or directly after use. Never immerse glue gun in water or other liquids to speed cooling process. Allow the gun to air cool only.
- Children should use this glue gun only under the direct supervision of a responsible adult.
- Do not leave the glue gun unattended while plugged in or in a hot condition.
- Make sure to have sufficient eye protective wear, like full mask, in order to avoid damaging materials entering and causing long lasting effect to eye area, during use.
- Use of Hot Melt Sticks with a diameter other than 11mm will damage the gun

Preventive Maintenance

1. To prevent the clogging of the glue gun, keep feeding mechanism and melt chamber free from dirt and other foreign debris. Store unused glue sticks in a clean environment.
2. Do not pull glue stick from the back of the glue gun. The feed mechanism may be damaged or impaired. If you desire to change types of glue, cut off the protruding end and feed the remainder through with the new type of glue.
3. Do not lay heated gun on its side. Keep the heated gun in an upright position, on the metal stand or workbench, with nozzle pointed down.
4. If melted glue has escaped from the melt chamber entrance and is interfering with the feed mechanism; allow gun to cool, and gently remove the obstructing glue.
5. Replace the nozzle if glue drips excessively. Do not attempt to change nozzle when glue is cold. To change, the gun must be heated until the glue is softened enough to remove nozzle (about 1 minute). Use gloves and with a wrench, remove the old nozzle. Flush glue through the gun, to clean out the melting chamber. Replace with a new nozzle. Tighten only until snug. Do not over tighten.
6. Keep outside of glue gun clean.
7. **Only use approved 11mm diameter stick glue with this gun**

To the fullest extent permitted by law, Buyer shall protect, defend, indemnify and hold harmless Seller, its directors, officers, shareholders and employees (collectively "Seller") from and against any and all manner of actions, claims, demands, damages, losses, liabilities, penalties, judgments, costs and expenses of any kind whatsoever (including without limitation, attorneys' and consultants' fees and expenses), whether in law or in equity or otherwise, arising out of or relating to (i) any inaccurate or faulty specifications supplied by Buyer, or (ii) any infringement or alleged

infringement of any patent, trademark, design or other intellectual property rights resulting from Seller's compliance with Buyer's specifications, or (iii) any personal injuries or property damage sustained or allegedly sustained by any person (including, but not limited to, Seller's agents and employees) as a result of Buyer's active or passive negligence or misconduct; or (iv) Buyer's or any third party's failure to test and determine the suitability of any item for Buyer's or any other intended user; (v) Buyer's or any third party's misuse or failure to use any item in a manner that does not conform to the applicable item specifications or to the requirements of any applicable federal, state or local law or requirement; or (vi) any third party claims asserted against Seller as a result of Buyer's or any other third-party's use of any item purchased hereunder. The provisions of this paragraph shall survive the delivery of and payment for all items under this Agreement and shall apply irrespective of whether Seller is also actively or passively negligent or otherwise at fault. In addition, this indemnity specifically covers any claims that may be asserted by Buyer's employees, and Buyer hereby expressly waives, for purposes of this indemnity only, any immunity it may have under any worker's compensation or other law from liability for claims brought by Seller pursuant to this paragraph.

Buyer's indemnity obligations to Seller hereinabove shall not be limited by any limitation on the amount or type of damages, benefits or compensation payable by or for Buyer under worker's compensation acts, disability benefit acts or other employee benefit acts on account of claims against Seller by an employee of Buyer or anyone employed directly or indirectly by Buyer or anyone for whose acts Buyer may be liable. In no event shall Buyer's liability hereunder be limited to the extent of any insurance available to or provided by Buyer.

11. **GOVERNING LAW:** This Agreement shall be governed by, and construed in accordance with, the laws of the State of Maryland without regard to its conflicts of laws. Any and all disputes arising under this Agreement shall be resolved in a state or federal court of competent jurisdiction within the State of Maryland and Buyer hereby irrevocably submits to the jurisdiction of any such court for the resolution of any and all disputes arising hereunder.
12. **WAIVER OF BREACH AND SEVERABILITY:** Any failure by Seller at any time, or from time to time, to enforce or require the strict keeping and performance by Buyer of any of the terms or conditions of this Agreement shall not constitute a waiver by Seller of a breach of any such terms or conditions, nor shall it affect or impair such terms or conditions in any way, or the right of Seller at any time to avail itself of such remedies as it may have for any such breach or breaches of such terms or conditions. A waiver of any of the terms or conditions hereof must be in writing and signed by the Seller. Any such waiver shall not be deemed a continuing waiver, but shall apply solely to the instance to which the waiver is directed. If any term or condition of this Agreement, or portion thereof, is rendered unenforceable under the law, all remaining terms and conditions not affected by such determination shall remain in full force and effect and shall be binding upon the parties hereto.
13. **NO THIRD PARTY BENEFICIARIES:** Except as otherwise provided in writing, nothing contained in this Agreement shall be construed to give any rights or benefits in this Agreement to anyone other than Buyer and Seller, and all duties and responsibilities undertaken pursuant to this Agreement will be for the sole and exclusive benefit of Buyer and Seller and not for the benefit of any other party.
14. **SUCCESSORS AND ASSIGNS:** This Agreement shall be binding upon and shall inure to the benefit of the respective successors and assigns of both Seller and Buyer. Buyer shall not, however, assign this Agreement or any part thereof or the items hereunder without the prior written consent of Seller, which consent Seller may grant or withhold in its sole and absolute discretion.
