

Champ™ 600 LCD

Description: : Industrial “Self Contained” Hot Melt Handgun with Precise PID Temperature controls to include readout, Temperature adjustability to 400°F, 8 ounce melt tank reservoir in the gun, high output piston pump, "No Drip" check valve nozzle tip,, locking tank lid, stand and magnetic base for use with low cost bulk hot melt adhesives.

Product Details:

- Manually applies precise dots or beads/lines of hot melt
- Processes bulk hot melt adhesive in chip or pillow form
- Adjustable PID temperature control: 250°F to 400°F
- Up to 2 lb. per hour melt rate, depending on adhesive
- High flow piston pump trigger mechanism – 4 grams per trigger
- Very easy trigger actuation
- Check Valve nozzle tip to minimize "stringing" and dripping
- "All Electric", no air required
- 8 oz. adhesive melt reservoir in gun
- Gun Weight: 3.25 pounds (without adhesive)
- Power Requirements: 120VAC=4.16 amp/1ph/50-60Hz- 240VAC=2.08 amp/1ph/50-60Hz
- Wire stand, magnetic stand gun base, tool balance mount
- 120 or 240 VAC
- One 2.0mm nozzle with gun- range of nozzles available
